Tsunami Warning and Emergency Response:
Using the PTWC Enhanced Products for National Tsunami Threat Decision-making

Laura Kong
UNESCO/IOC – NOAA International Tsunami Information Center

Rajendra Prasad, Masahiro Yamamoto (retired)
UNESCO/IOC Tsunami Unit

Shohei Matsuura
JICA/SPC
Goals and Objectives

- Strengthen Tsunami Warning and Emergency plans and procedures (SOPs for end-to-end / detection-messaging - evacuation response)
- Increase capacity of operational staff to efficiently and effectively respond to regional and distant events
- Improve understanding and use of PTWC New Enhanced Products
Agenda

- **Day 1 (Mon): Introduction and Overview**
  - Opening, introductions, course overview
  - Roles of TWC and TER
  - Overview of PTWC New Enhanced Products

- **Day 2 (Tue): PTWC Enhanced Products**
  - Using PTWC Enhance Products, science of EQ/Tsunami
  - TWC Operations 1: detection and monitoring
  - Demonstration of decision support tools

- **Day 3 (Wed): Forecasting, SOPs, Messaging**
  - TWC Operations 2: forecasting
  - TER SOPs using PTWC Enhanced Products
  - Tsunami warning, evacuation, awareness, preparedness

- **Day 4 (Thu): Tsunami Hazard Scenarios/Exercise**
  - Tsunami hazard scenarios
  - Table Top Exercises - Decision-making
Thank You
