Implementation of the Sendai Framework in the Americas

Update on activities supported by the UNISDR Regional Office for the Americas

Sandra Amlang, UNISDR
10 May 2017

ICG/CARIBE EWS-XII, 10-13 May
Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population

Direct economic loss attributed to disasters in relation to global gross domestic product (GDP)

Direct economic loss in relation to global GDP, damage to critical infrastructure and number of disruptions of basic services, attributed to disasters

Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030

Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies.
Operationalising the indicator framework for the Sendai Framework

- **Data readiness review** – assess availability of data for countries to report, and identify gaps.
  - Review concluded in April 2017
  - Summary report to Member States at GP17
  - GP discussions to inform forthcoming work, including with NSOs, in roll-out of monitoring frameworks of Sendai Framework and SDGs.
Technical guidance for reporting, and minimum data standards (builds on OIEWG)

- Draft technical guidance prepared for GP17.
- Feedback to inform further technical discussion and refinement Q3-Q4 2017
Operationalising the indicator framework for the Sendai Framework

- Sendai Framework Monitor
  - Design phase, prototype presented for validation by MS at GP17
  - Feedback to inform build phase, testing and refinement Q3-Q4 2017
  - Launch January 2018 for first cycle of monitoring
Disaster Risk Reduction Platforms

- **Ministerial Meeting** (June 2016, Paraguay)
  - Declaration and guidance for Regional Action Plan

- **Regional Platform in the Americas and Ministerial Meeting** (March 2016, Canada)
  - Declaration and Action Plan for the implementation of the Sendai Framework, Chair’s Summary

- **Global Platform** (22-26 May, Mexico)

- **Regional Platform in the Americas** (June, Columbia)
Caribbean

- EWS desk review and recommendations
- Seismic Risk Road Map
- Caribbean Commemoration of the WTAD (Oct 2016)
- Regional DRR priorities (Nov 2016)
- Caribbean Safe School Ministerial Forum (April 2017, Antigua and Barbuda)
- Engage Private Sector in DRR
- DRR country documents
- Harmonization of the CDM Strategy with the Sendai Framework (Technical Annex) / CDM Country work programmes aligned with the Sendai Framework
Central America

- Support CEPREDENAC with the **harmonization** of the **PCGIR** (Central America comprehensive risk management policy) **with the Sendai Framework**.

- Development of the **National DRR Plan** in line with the Sendai Framework in **Honduras**.

- Costa Rica – Monitoring Framework finalized based on policy and national DRR plan all aligned to SFDRR.

- Definition of **National DRR indicators and roadmap for National DRR plan in Guatemala**.

- Private sector National ARISE chapters in Honduras, Guatemala, Nicaragua and El Salvador.

- Implementation of the Making Cities Resilient Campaign with local governments and partners.
South America

- Support to UNASUR for the **strengthening of the High-Level Technical Committee for DRR** including through facilitation of exchanges between UNASUR and other technical intergovernmental entities

- South American **regional DRR strategy as well as regional diagnosis** finalized, awaiting final review and approval by Member States

- Formulation of sectoral plans, guidelines and/or evaluations

- **Draft regional DRR strategy for the agriculture sector in LAC** developed and presented for consideration by countries, expected to be finalized by end of June 2017

- Support to countries for the **development and/or alignment of DRR strategies and/or plans**
Thank you
